FINANCIAL AND COMMERCIAL.

THURSDAY, Oct. 7-6 P. M. Gold became quite active to-day, and rose to 132, in consequence of the discovery that the Sub-Treasury had inquidated about two millions of three per cents by use of greenbacks drawn from the fifty mil-Mons reserve held by the Treasury, as authorized by Congress. When the step had been canvassed, and on it was evident that such use of the reserve was not what it threatened to be-viz., an inflation of the currency—the price of gold fell back to 131%. The range of the gold market was as follows:—

The short interest in the market is still large, and loans of cash gold were made at five to two per cent for carrying and flat for borrowing. The steamer Union to-day took out \$7,500 in treasure. It will be seen by the detailed report in another column that the Gold Exchange has suspended for a week all action on the subject of a new Clearing House, the officers of the Gold Exchange Bank asserting that they were entirely solvent and had their capital intact; that in a few days they would be able to resume business, and intended then to propose an entire reorganization of the bank, with new directors, new officers and an entire change of administration; that they were willing, if the Gold Room so desired, to abandon the banking business, which has always been objectionable to the members of the board, and to confine the business of the bank clusively to the clearances of gold for the members of the Room. It will be noticed further on that at the Stock Exchange this morning the best bid for Gold Exchange Bank stock was 5 1/4.

ney market was very easy and funds were offered as low as four per cent on governments before three o'clock. Accounts were generally made up at two o'clock, and in the interval to the close of banking hours money was to be had from six per cent downward, according as the borrower chose. There is not much disposition to lend for long periods of time, which shows the distrust of the present situation. Discoupts were dull, the few buyers having a large range of good names. Rates were quoted, on extreme figures, from nine to fliteen per

Government securities were firmer, owing to the strength of the gold market, the '87's touching 118%. With the reaction in the afternoon there was a falling off in quotations. The following is a list of the proposals which were accepted at the Treasury pur-

A copy of the charter of the National Bank of St. Domingo, granted to some capitalists of this city, is now in circulation in Wall street. In view of the probable annexation of St. Domingo to the United States at an early day, and of the unusually valuable privileges contained in this franchise, it shows how enterprising our capitalists can be.

The stock market was dull and weak at the open ing in sympathy with a decline in Lake Shore and New York Central, the former stock still constituting the feature of interest for brief speculative operations. Nothing is yet known of the plans of the directors, who were again in private session today, further than that they discussed a proposition day, further than that they discussed a proposition to issue a million and a half of bonds (more or less) to make up for the indettedness of Mr. Lockwood and enable the continued payment of dividends. The affect of this policy having spent itself upon the stock, which declined to 33%, there was an upward

turn and the market closed steady at the rally. Exceptionally, there was a "break" in Chicago and Alton to 135%, while Wells-Fargo advanced to 25. COMMERCIAL REPORT.

COFFEE.-For Rio the market was still quiet but steady

Sto bags or Kalisto were sold on private terms. In other kinds there was no business of consequence. COTTON.—There was a fair business transacted to-day, the demand being principally from exporters, but the offerings were fair and prices in consequence were heavy, though no lower. The sales were 3,739 bales (1,230 to arrive), including 1,969 for export, 752 for spinning, and 1280 on speculation. For future delivery the business was fair, but prices favored the purchaser. Sales 150 bales even running low middling to October, and 155 days.

Ea does not intend to reflect upon the officers of the peace then in power. If the newspapers are not protected they are deprived of all benefit to the community, and if they do not speak out in cases where the public are interested, then they fall short of their duty. The public is always ready to condemu violence and say crime should be redressed, and it is, therefore, not out of the duty of a newspaper in the statement of public acts, to color nignry such acts, so as to describe and point out, as nearly as possible, the probable perpetrators of the outrage; all these things, his Honor held, were not only right but highly meritorious. The counsel for the plaintiff, the Court tremarked, ungits argue that the press had no right to charge innocent parties with a crime, but the Court thought that their might be cases in which the innocent might possibly be called to suffer, for the press has run the risk of injuring the innocent. The Court thought this was the justice of the case, and cired a number of cases in point. To entitle the planning to recover in this action the jury must find that the writings set out in the declaration were published by the defendants of and concerning the plaintiff. But if they shall also find that at or just previous to the time of said publication the peace of the city was repeatedly disturbed and the rights of private persons traveling on their own lawful business between Washington and Piniadelphia violently and uniawfully juvaled and violated by evil-doers, who were not arrested or punished, as detailed in the evidence, then it was the right and duty of the defendants, as publishers of a public newspaper, to publish the facts which came to their knowledge constituting said crime, and to comment thereon with such severity of rebuke as a fagirant breach of the peace deserves; and such statement and comments, if fairly and bond fide inade, with a view to the public good, were privileged communications, free from the legal presumption of malice which attends a libellous communication no

The suit was for \$10,000. The jury awarded \$250, and the case has been appealed.

Supposed Murderers arrested—A Mysterious Case,—Leonard Gliman and Henry Cox, of Aroostook county, Me., were arrested last week, together with four other mea, on the charge of having murdered Thomas Holland, a discharged British soldier, some two years ago. Holland was first missed September 23, 1807, and there were suspicious that a gang of desperadoes who lived near him, at the village of Munquart, thirty miles above Woodstock, N., had murdered him, out nothing decisive was done about it. A few mouths after Holland's disappearance a fresh grave was found, and when the parties who lound it visited it again, shortly after, it had been opened and the body removed. A few weeks ago another grave was found near where the first one was, and in it were found a human skull, a few ribs, the bones of a hand, tufus of hair, &c. These discoveries led to investigations which caused the arrest of the parties mentioned above.—Boston Journal, Oct. 5.
